Who Qualifies?

NextGen Wound Care is dedicated to providing advanced wound care services to individuals suffering from chronic wounds open for 3 weeks or longer. Our innovative treatments, including amniotic tissue and collagen grafts for skin grafting, are designed to promote faster healing, reduce scarring, and improve the quality of life for our patients. To ensure our services reach those most in need, here is an overview of individuals who qualify for our treatment programs:

- 1. Insurances:** Eligible for our specialized treatments under Medicare Part B, some Medicare Advantage plans, and VA coverage.
- 2. Individuals with Persistent Wounds:** Those with wounds not healing over 3 weeks or longer, such as diabetic ulcers and pressure sores.
- 3. Patients with Deteriorating Conditions:** Those observed for 30 days with progressively worsening wounds, confirmed through a conservator examination.
- 4. Seekers of Innovative Solutions:** Patients needing beyond traditional care, especially interested in regenerative medicine using Amniotic Tissue and Collagen Grafts.

All Conditions

10 WEEK TREATMENT

Services

- 1. Advanced Skin Grafting:** Utilizing Amniotic Tissue and Collagen Grafts to promote faster healing and minimize scarring.
- 2. Chronic Wound Management:** Comprehensive care plans for managing and healing chronic wounds such as diabetic ulcers, pressure ulcers, and venous stasis ulcers.
- 3. Infection Control and Management:** Implementing strategies and treatments to prevent and manage infections in chronic wounds.
- 4. Pain Management:** Offering solutions and therapies to manage pain associated with chronic wounds, enhancing patient comfort and quality of life.
- 5. Nutritional Counseling:** Providing guidance on nutrition that supports wound healing and overall health.
- 6. Patient Education and Support:** Empowering patients with the knowledge and resources they need to participate in their care and improve their outcomes.
